

Cargo cabinet M-LC

Merianto Medical hospital furniture includes M-LC cargo cabinets which are high-capacity front opening tall cabinets. The cabinet interior is transported on strong ball-bearing runners and can be opened up to 100%. The cabinet interior consists of special adjustable inner shelves and the cabinet can accommodate up to 7 shelves. The inner shelf frame is made of aluminium to which different label holders and dividers may be attached. The inner shelf base is white plastic or transparent acrylic glass.

The cargo cabinet is made from quality melamine. The selection includes cabinet widths of 300;400 or 500 mm. The cabinet has interior lighting.

Doors have silicone magnets which ensure soft closing. The cabinets have adjustable feet and bases.

The cabinet has interior lighting

The cabinets can be ordered with angled tops to help reduce dust collection on the tops.

The cabinet is lockable.

The inner shelves used in the cabinet have many additional accessories, dividers, label holders etc. which help create order and save space

Standard options include five different finishings:
