## WALL CABINETS MY

The Merianto medical hospital furniture series is based on the ISO module system, using  $600 \times 400$  mm and  $400 \times 300$  mm baskets. The dimensions of the cabinets correspond to the dimensions of the modular system. The MY wall cabinets are designed for baskets with widths of 600 mm, 400 mm and 300mm. It is possible to custom assemble the contents of the cabinets as required, using the baskets and shelves of the modular ISO system.

The medicine cabinets are produced from quality melamine. The selection of materials also includes antibacterial surface finishes. The cabinets can be assembled with an open or closed facade. The doors open to 220°.

Facade options are:

It is also possible to select from a wider variety of different colours and finishes from the catalogues of melamine producers, the availability of which must be verified at the time of ordering.

- It is possible to custom assemble the contents of the cabinets according to the user's needs, using the baskets, shelves and drawers of the ISO modular system.
- The baskets can withstand loads of up to 20 kg.
- The baskets on ball runners can withstand loads of up to 50 kg. The bus systems are soft closing.
- All facade types are lockable. The locks can be serialized as desired so that they are compatible with other cabinets in the same room, floor or similar area. The base selection includes a mechanical furniture lock, but an electronic code lock or chip card lock can also be selected.
- The doors have silicone magnets that ensure secure and soft closing.
- It is possible to integrate sensor-controlled LED lighting into all the cabinets.
- Handles are 128 mm long and have an antibacterial surface finish.
- It is possible to equip the cabinets with angled tops that assist in avoiding dust collecting on the tops.
- ISO baskets have many different accessories, dividers, label holders etc., that create order and save space in the cabinets.
