

MedicStorage shelf systems for hospital pharmacies

The shelving system made from strong steel is especially designed for hospitals and pharmacies. It allows for the space efficient storage of medications. The open solution provides a quick overview of stocks. The system of dividers ensures organisation. The shelves and drawers can be easily relocated and height adjusted. The drawers open upon touch, and they can also be installed on an angle.

The height of the support frame is 2115mm.
 The width of modules is 625 and 1000mm, depths are 400 and 500mm (with the addition of the support frame 60mm).
 The material is powder - coated steel. The finishing colour is white RAL 9003.
